## OBJECTIVE

To continue to actively supply my clients in the motion picture, television, advertising, video game, comic book and publishing industries with world class storyboards, conceptual illustration, production design and art direction for their projects.

## 2D TRADITIONAL/DIGITAL ILLUSTRATION SKILLS

- *24 years production experience.*
- *Specializing and emphasis* in storyboarding and cinematic storytelling as well as conceptual art and 2d animatics (including character and costume design, set/environmental design, props design, 2d special effects design through animatics, marker comps, mock ups and digital video compositing.)
- Experienced traditionally trained cel animator as both key, in-between, and clean up animator as well as animation direction.
- Sequential illustration and storytelling for comic books as a penciller, inker and colorist.
- All artwork carried out through traditional paper and scanner in conjunction with digital work through Photoshop, Painter, Premiere, Sketch-Up, and After Effects.

## 3D SKILLS

- Experienced cinematic compositing and pre-visualization skills.
- 9 years experience in hand key framed character animation in Maya with some 3D Studio Max and Motionbuilder and Sketch-Up experience. Some 3D modeling experience. Some 2D/3D texture experience. Some motion capture experience.
